WATER RIGHTS
SALT LAKE

Subject: Change Application No. a21033 (55-4292)

Dear Mr. Morgan:

The subject change application has been filed by Edmund T. Sperry. The purpose of this application is to change the point of diversion, place, and nature of use of 4 cfs of water.

We filed a letter of protest on this application previously. A hearing was held and a decision has been issued by your office. This decision did not require the retirement of irrigated lands as a condition of approval. We request that you reconsider and reissue this decision, adding this additional condition.

Water rights held in our name for project purposes may be adversely impacted if these and other similar applications are approved improperly. These water rights include Water Right Nos. 55-295 for the Provo River Project, and 55-4494 for the Bonneville Unit of the Central Utah Project.

If additional meetings or hearings are held, we desire to attend and participate.

Sincerely,

Jonathan B. Jones
Water Rights Coordinator
